SHUATS ONLINE ENTRANCE TEST (SOET)

SS Browser Download & Run Manual

Step by Step process for opening SS Browser

Step 1: Download

Login at SHUATS Admission Portal and click SOETAP web link at the candidates Home Page and download SS Browser **(or)**

Open the link https://viox1.onlinereg.in/shuats/from your desktop/laptop using **Google Chrome Browser**

Click on the "Download SS Browser" button

During download, the anti-virus in your system may prompt you to re-confirm download, as it is an exe (executable) file.

Select **keep** option and proceed further.

DO NOT worry, it is very safe to download and the run the exe file

This exe file is needed only for the exam and not for anything else.

(*Note: If your antivirus keep blocking the download kindly disable it to complete the download*)

Step 2: Start SS Browser

Double click on "SSB_SHUATS.exe" from the downloaded location to open the SS Browser.

You will get the following pop-up window that will say.

Windows protected your PC

Click on "**More Info" link.**   **Next** Click on **Run Anyway**…..

Once you click "**Run anyway"** the below screen may appear.

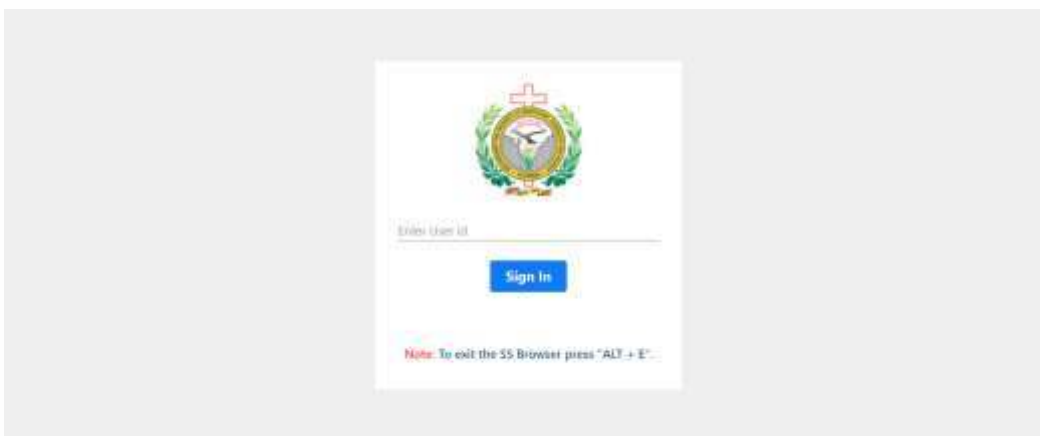

Click **Yes** to start your SS Browser.

SS Browser Opening screen

SSBrowser Version (4.0.0.1)

Click **Yes** to continue to open the login page. Save and Close all your existing running applications.

Enter your **User Id** than click on the **Sign In** button to proceed.

Enter your User ID and Password to sign in (which is the same User ID (registered mobile number) and Password of your SHUATS Admission Portal).
